WORK TO RESUME ON CLAREMONT PROJECT

WASHINGTON STREET FROM NORTH STREET TO CLAREMONT PLAZA

The New Hampshire Department of Transportation announces construction work is scheduled to restart within the next week on the Washington Street project in Claremont.

This project involves the reconstruction of two major sections of Washington Street, repairs to the bridge over the Sugar River, and the reconstruction and widening of the North Street intersection with improved signalization.

The initial focus of work will be at the North Street intersection location at the western end of the project. Some lane reductions may be necessary. Uniformed officers will assist motorists through the work zone.

R.S. Audley, Inc. of Bow, New Hampshire is the general contractor for the \$5.8 million project, which is scheduled for completion in the summer of 2004.
